

Electronic Work Permit (e-WP)

E-WP BROCHURE

Introduction

- Electronic Work Permit (e-WP)

is a web-based solution used within client intranet to manage electronically the authorization process of non-routine activities which are carried out in client business as per Permit to Work Procedure.

WHY e-WP?

e-WP

- The e-WP is an electronic form workflow system that allows the Permit Applicant (PA) to launch or begin the process of requesting for a work permit, then sending the permits to the Permit Issuer (PI) for Authorization and then to the Worksite Supervisor (WS) to work on the requests of the permit.

There are three main user roles that are involved in the eWP:

1

Permit Applicant (PA) - The person applying for a work permit.

2

Permit Issuer (PI) - The person authorized to issue a work permit.

3

Worksite Supervisor (WS)

1. The person who will be supervising the work that is covered by the issued work permit. This person represents the party providing the work.

The e-WP consists of following types:

1. Hot Work Permit

2. Cold Work Permit

3. Radiography
Work Permit

4. Vehicle / Mobile
Plant Entry Permit

5. Excavation
Notification

6. Confined Space
Entry Permit

e-WP

● FUNCTIONS:

1. Issuing new permit to work requests
2. Renewing permit to work requests
3. Saving the permits for Audit & compliance requirements
4. Integration with IBM Maximo
5. Searching of archived work permits
6. Dashboard & reporting

e-WP

● ADVANTAGES:

1. Major cost saving in many areas
2. Paper saved
3. Printer & ink cartridges saved as printing is not required
4. Time to Issue & distribute the Permits
5. Times saved to issue & quick approval of the permits
6. Access to updated equipment data stored in the IBM Maximo system
7. Easy accessibility of the application from Desktop & mobile devices.

By Automating the Permit to Work process & integrating with internal Systems like the Maximo, the customer has taken a major leap in it is strategic objectives toward Digitalization & Cost optimization. It has enabled the organization to ensure strict compliance with its internal Health & safety requirement guidelines that have been put in place to ensure the safe for its employees & the environment.

THANK YOU
